Press Release

Over 25,000 Theological articles now available for Free Download.

Theology on the Web sees the data equivalent of 2,300 sets of Encyclopaedia Britannica of articles downloaded in just one year

London, UK September 1, 2015: The web-based ministry ***Theology on the Web*** [theologyontheweb.org.uk] celebrates its 14th anniversary today. The 25,000+ theological articles that it host are equipping millions of visitors around the world to study in-depth, not only the Bible, but also church history, biblical archaeology and Christian missions without the need to access a University or Bible College library. Launched in September 2001 the original website biblicalstudies.org.uk has developed into eight inter-linked sites which provide their resources free of charge. Based on current growth rates it is expected that around two million people will visit the sites in 2015. With the beginning of a new academic term rapidly approaching and site downloads already exceeding 2.3 terabytes over the last twelve months it has become necessary to dramatically increase webserver capacity in order to cope with the demand.

Webmaster Rob Bradshaw writes:

It is wonderful to know that much of the material being downloaded around the globe is being used by Bible students in countries where physical access to these articles would be impossible by any other means.

Professor. P.H.R. van Houwelingen of Theologische Universiteit Kampen
[<https://www.tukampen.nl/medewerkeronline/phrvanhouwelingen>] in the Netherlands writes:

By the way, I am in Sao Paulo (Brazil) right now, giving guest lectures at a Presbyterian University. Their library was temporarily closed because of reorganization, so I asked the students to prepare themselves by searching for materials on www.biblicalstudies.org.uk!

For Release 1st September 2015
